

Good Samaritan Hospital EMS TRENDS

Tuesday, March 16, 2010

7:00-9:00 pm

Good Samaritan Hospital Conference Room & Telehealth Sites

“Pre-Hospital Care of the Burn-Injured Patient”

Presented by: Tracy Dethlefs, RN, BSN
St. Elizabeth Regional Burn and Wound Care Center,
Lincoln, NE

Objectives:

At the end of the session, the participant will be able to:

- Identify safety requirements at the scene for First Responders
- Initiate appropriate assessments in the field for a patient with burn injuries
- Recognize when life-threatening conditions exist and what to do for them

Continuing Education – Good Samaritan Emergency Services offers two hours of continuing education to all participants to be used towards their state certification. A certificate of attendance will be mailed to all participants following the course and after completion of necessary paperwork.

Telehealth

The mission of the Telehealth Services Department at Good Samaritan Hospital is to use technology to improve access to quality care by providing consultation and treatment in both routine and emergency situations, to increase health-related educational opportunities for providers and the community, and to provide a venue for health-related administrative meetings. Twenty-one sites have joined with Good Samaritan Hospital to create the Mid-NE Telehealth Network.
